

OBJECTIVE

This event aims to enable discussion on mode effects in panel surveys, featuring three international experts who will share their best practices regarding both the collection and analysis of longitudinal data gathered via various modes (CATI, CAWI, CAPI).

ORGANISING COMMITTEE

THOMAS MERLY-ALPA, Head of Development for Online and Multi-Mode Data Collection in Household Surveys, INSEE

ALBANE GOURDOL, Head of the Surveys and Polls Service, INED

ARIANE PAILHÉ, LifeObs Project Principal Investigator, INED

CÉCILE ALLAIN, LifeObs Project Coordinator, INED
